PLANT: 109-1680 Broadway Street, Port Coquitlam, BC V3C 2M8

Dear Consumer(s),

Welcome to Label Tech West new catalog! In this catalog, we manufacture most labels that fit into today's weight scales. We offer this catalog as a reference to you and request that you contact your local reseller when inquiring on purchasing label media. If you don't have a current supplier, give us a call and we will put you in contact with a reseller in your area. We have worked hard to make this catalog easy to use. Here are some basic instructions on how to navigate through the catalog.

1. **Congratulations!** You have already figured out at least one way to get around the catalog!
 - Highlighted words in either **blue**, **red** or **reverse black** will connect you to label information, pricing or a picture of the label.
 - Left click your mouse on these words it will take you to the page indicated. There are many of these conveniences throughout the Label Tech West catalog.
2. Included are a few pages that need your attention.
 - **Unwind Chart**; please use this when ordering custom labels to insure that the unwind will be correct on your label rolls.
 - **Index Pages**; links have been put on these pages to aid you in navigating through the Label Tech West catalog.
3. Printing any of the catalog pages can be done.
 - Color, only if you have a colored printer.
 - Non-color printers, the pages will be black and white with various shades of grey.
 - When printing the pages please determine which **DOCUMENT** page you would like to print.
 - This diagram found at the bottom of your screen will tell you the **Document** page you are on.

- When printing, the print box that pops up asking what you would like to print should have an area that indicates '**PRINT RANGE**', *if you select 'ALL' you will print 35 pages!*
 - To print the page you are looking at: select '**CURRENT PAGE**'.
 - To print a range of pages, please refer to the **Document Page #'s NOT the Catalog Page #**. If you refer to the **Catalog Page #** you will print the wrong page. (See above diagram)
4. Finally, if you have never used the Adobe Acrobat Reader program, Label Tech West strongly recommends you to take a few minutes and go through the Tour available under the word '**Help**' along the top bar of this program and click '**Acrobat Tour**'. It will help you learn more tricks and short cuts to this program.

Thank you for your interest in our label media and we will be happy to put you in contact with a reseller in your area. If you have a reseller and they are not currently buying our labels, please ask them contact us immediately.

Now.... Let's get started!
-CLICK HERE-

Sincerely,

Label Tech West Inc.
